PROFILE

Knowledgeable Web Developer brings superior front- and back-end design to promote organization-specific website presence. Thorough comprehension of complex HTML, CSS and JavaScript programming languages to generate custom webpage design. Extensive collaboration with UI and UX to ascertain company expectations and oversee site creation, from initial planning through rollout and support.

EMPLOYMENT HISTORY

Web Developer, Archdiocese

Jaro Iloilo

April - August 2020

Archdioces de Jaro, are keeping documents such as, Marrige Certificate, Baptismal Certificate, Death Certificate and Confirmation. As Web developer my core activities are :

- ▶ Building wireframes & prototype design, which were turned into functional and responsive web application
- ▶ Designed and developed user-friendly web application where they can store all the archives data with different category and search into it easily.

ACHIEVEMENTS

HackFest 2020

Manila

November 21-30, 2020

HackFest 2020 is a 10 day event with 2 days hackathon held by DSC Loyola one of the popular school in manila with 500+ participants and 160 teams, we are given a task to innovate a product that will solve the current issue (Pandemic). We achieve to be on top 15 finalist out of 160 teams in HackFest 2020.
